

# Why gender neutral restroom are important

Bathrooms without a designated gender benefit a variety of individuals who are not comfortable or who face mistreatment when accessing gender-specific bathrooms.

This includes:

## Transgender & Gender Non-Conforming People

Transgender and gender non-conforming people often face stress, anxiety and mistreatment when accessing the gendered bathroom that is appropriate for them. Providing access to a private, non-gendered stall can reduce or even eliminate this burden.

## People w/ Disabilities or Personal Attendants

People with disabilities or others who have personal attendants of a different gender can run into problems when accessing gendered bathrooms. Gender-neutral bathrooms can provide a more welcoming and comfortable situation for two people of different genders.

## People with Children

Parents or guardians with children of a different gender can encounter misunderstanding when accessing gender-specific bathrooms. Removing this potential can easily be addressed with a gender-neutral bathroom.

## Everyone

We've all waited outside an occupied bathroom while the bathroom for the gender we don't identify with was empty. Gender-neutral bathrooms are more efficient, allowing you to avoid that unnecessary wait.

*Gathered from ohr.dc.gov*

## Did we miss a gender neutral restroom?

## Let us know!

## Tweet us at @glbtiqksu with the restroom's location!
